SITUATION SUMMARY

Post-Tropical Cyclone Marie, High Surf Event, Impact to Southern California (Update)

- On 8/29/14 as of 0200 hours, the National Hurricane Center (NHC) downgraded Tropical Storm Marie to a Post-Tropical Cyclone due to maximum sustained winds decreasing to near 40mph extending outward up to 125 miles from the center.
- The NHC is forecasting that swells generated by Post-Tropical Cyclone Marie are expected to gradually subside in Southern California as the storm weakens over the next 48 hours; however, life-threatening surf and rip current conditions are still likely as a result of these swells. There are no coastal Watches or Warnings in effect.
- National Weather Service reports that high surf for south and southeast facing beaches of Southern California due to Post-Tropical Cyclone Marie is the most significant southerly swell event in 25 years and will cause: damage to piers; local flooding of coastal property; beach erosion; very strong rip currents endangering swimmers and surfers; and threat of sneaker waves to beachgoers.

Orange County

- Per the Orange County Emergency Manager, as of 8/27/14 at 1800 hours, there is no significant damage in coastal areas. The Seal Beach Pier is closed due to flooding; however, there are no reports of damage to the pier structure. There are no requests for State assistance at this time.

Ventura County

- On 8/27/14 at 2200 hours, the lifeguard station (approximately 1,000 square feet) located in Sycamore Cove in Point Mugu State Park was destroyed due to the large wave activity. Crews are working today to clear the debris.

SITUATION SUMMARY

Tropical Storm Marie, High Surf Event, Impact to Southern California Cont. (No Change)

Los Angeles County

- Malibu Pier: Is closed due to damaged pilings and is expected to remain closed through Friday, 8/29/2014. Today a structural engineer will be evaluating the pier to determine if and when it can be reopened. The septic tank at the end of the pier was washed away which served both the gift shop and the Malibu Farm restaurant. At the time the tank was empty. The replacement cost is estimated to be \$45,000 and will take two weeks to fabricate and install.
- Malibu Surfrider: A sand berm was constructed west of the Malibu Pier to protect the lifeguard's base of operations.
- Avalon (Catalina Island): Significant wave activity has occurred causing the temporary suspension of boat service to the island. There is minor damage to the dock area. Pebbly Beach has sustained significant damage to the water front area including a boat yard and lumber yard. The heliport has been overrun with debris due to flooding. There have also been reports of some power outages in the area.
- Zuma Beach: The Fire Department's Dozer Team constructed five (5) sand berms to protect structures in the beach area including restrooms, concession stands, lifeguard headquarters, and a temporary fire station.
- City of Long Beach has reported flooding along Ocean Boulevard due to the tide appearing to breach sand berms. Pump Plant Crews are in the area to respond to any emergency that may arise. Long Beach Police Department (LBPD) Boat Unit located 3 damaged locations west of the Queens Gate area on the break wall. One lane shutdown on Pier F Ave from 1300-1500 block due to possible Pier F structural issues. A 16" water main is shut down at approx. 900 Navy Mole Rd. Navy Mole area east of that is without water. 26 fire hydrants affected.
- Cove House: On 8/27/14 at approximately 2200 hours the Cove House at Sycamore Cove collapsed. The Angeles District is working with Channel Coast District to prepare an emergency contract to remove the building.
- Thornhill Broome Campground: With the swell beginning to die down staff is currently trying to determine if the campground can be opened tomorrow, 08/28/14.
- Day-Use Parking lots: The day-use parking lots will reopen today, 8/28/14, with the exception of Sycamore Cove.

There are no AFN issues at this time and there are currently no requests for State assistance.

The Cal OES Southern Duty Officer continues to monitor the situation and provide updates.

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County

SITUATION UPDATE:

On Sunday, August 24, 2014, at 0320 Hours PST, a magnitude 6.0 earthquake struck five miles northwest of American Canyon, CA. The earthquake nucleated at a depth of 10.8km. The shaking intensity in American Canyon and Napa from the “South Napa Earthquake” was a “VII” on the Modified Mercalli Scale, suggesting very strong shaking occurred in the Napa County area. Ground shaking was felt as far south as Salinas, east to Sacramento, and north to Ukiah. USGS estimates that aftershocks should be expected for the next week. The Cal OES Earthquake and Tsunami Duty Officer is in contact with the United States Geological Survey and California Geological Survey and will provide updates.

Aftershocks:

as of 08/29/14 at 0820 hours, there have been 103 aftershocks, four of which are M3.0 or greater (Source: USGS).

Aftershock Probability Report:

At this time (4 days after the mainshock) the probability of a strong and possibly damaging aftershock in the next 7 days is less than 10%. Most likely, the recent mainshock will be the largest in the sequence. However, there is a small chance (approximately 2%) of an earthquake equal to or larger than this mainshock in the next 7 days. In addition, approximately 1 to 10 small aftershocks are expected in the same 7-day period and may be felt locally.

Area Weather Forecast

Quiet weather is expected across the San Francisco and Monterey Bay Region all work week.

Access and Functional Needs

- Members of the Functional Assessment Service Team (FAST) have joined the American Red Cross's Integrated Care Teams, to provide disability expertise.
- Local Assistance Centers (LAC) will need to be accessible, including bus routes to facilities for individual's who don't drive. The Cal OES Office of Functional Needs (OAFN) offered assistance if needed.
- The Coastal REOC can provide laptops to LAC's to assure communication for anyone who is deaf and uses sign language interpreters and for those with Limited English Proficiency needing other language interpreters.
- In recovery planning, OAFN advised that disability related access fixes (i.e., ramps, grab bars) should be included as an eligible expense when using CDBG or other funding sources.
- The City of Napa has updated their website to include advisories and information regarding water supplies and usage. PG&E will continue courtesy checks for residents.

Ongoing Cal OES Missions

- **2014-LAW-5452 8/27/14, 2141 hrs.** The Contra Costa County Sheriff's Office is requesting 2 trailing and 2 area K9's ASAP at the ICP at San Ramon PD to assist in the search for a missing 77 yr old female with Alzheimer's who was last seen approximately 1200 hrs. today. Cal OES LEB K-9 Coordinator secured 1 area and 2 trailing K-9's for an immediate response. **Update:** On 8/28/14 at 0750 hours, Contra Costa advised there is no change from last night (Wed) and they're back out with a smaller crew this morning. Cal OES K-9 Coordinator secured two additional K-9's for this morning's search effort.
- **2014-LAW-5354** On 8/26/14 at 0307 hours, Tuolumne County Sheriff's Office (TCSO) is requesting SAR resources to help locate a missing 63 yr old female in the Columbia area off Saw Mill Flat Rd. The MP was last seen on video walking out of her home approximately 1100 hrs. on Monday, August 26, 2014. The family, which didn't see the video until approximately 1900 hrs., that day, immediately notified authorities, who initiated search efforts. The MP has medical issues and may be confused due to medications taken for arthritis and fibromyalgia. TCSO is requesting one trailing and one tracking K-9, along with helicopter support from CHP H-40 out of Fresno. The search area is a mixed rural/urban open space, containing heavy brush, and is at 1500'-2000' elevation. Tuolumne has already contacted both Calaveras County for the K-9 support and CHP for the helicopter. Update: 8/26/14, 1640 hrs., TCSO is requesting additional SAR resources for Wednesday, 27 Aug. to include thirty (30) Type II searchers and two (2) area K-9's. The Type II's are requested to respond at 0700 hrs. with the K-9's reporting at 0600 hrs. at TCSO's SAR office in Columbia. San Joaquin County SO and Calaveras County SO are providing the ground teams while the Cal OES Law Enforcement Branch coordinated the K-9 resources. **Update:** On 8/27/14 at 1611 hours, Tuolumne SO is requesting 25-30 Type II's for Thursday's Op Period, 8/28/14. Ground searchers requested to report at 0800 hrs. with the K-9's at 0700 hrs. LDO secured 32 ground personnel as follows: Merced SO (6), Stanislaus SO (6), Amador SO (5), El Dorado SO (12), San Joaquin SO (3 from Stockton PD). The Cal OES K-9 Coordinator secured the requested dogs. Mission Ongoing.
